

# Empower your Audience

engage • involve • motivate • teach

Instant  
formative  
assessments.

Save time,  
target effort,  
better results!

I get it!

Motivate  
them to  
come..

Participation  
lifts  
learning  
outcomes.

Involve every student  
throughout the lesson.

**XORRO**  
Q

**Xorro-Q enables educators to instantly assess understanding, while motivating students to attend and participate in lectures and lessons.**

## Save time

Formative assessments are instant and easy using Xorro-Q. You'll be amazed at how much time you save while gaining valuable insights and motivating your students!

## Focus effort

Xorro-Q provides immediate insights into what your students don't understand, and where you need to focus your effort for best results. Most importantly: you'll get those insights when it matters most - in class, well before end of term!

## Lift learning outcomes

Research proves that frequent formative assessment lifts outcomes. Add the impact of raised student motivation and involvement, and you won't have to wait for better results!

## Anywhere, any time

Xorro-Q extends your room boundaries by involving participants from anywhere in the world. You can also create activities for students to access in their own time.

## Involve everyone, instantly

Xorro-Q maximises participation. Any browser enabled device can join: no down-loads, no apps etc. Students can use their cellphones, laptops, tablets etc. Because there are no entry barriers or costs for students, you'll be able to achieve 100% participation.

## Motivate students

Students of all cultures love participating. Xorro-Q's options for feedback, scoring and Leaderboard add risk-less competition and fun to assessments and activities. By involving students, you'll raise attendance and achieve better learning outcomes.

## Easy, instant, familiar

Educators love Xorro's simplicity and ease of use. It fits in seamlessly, so you'll be able to use all of your existing lesson content. Just ask questions: it's really that easy!
